

Payment for Services

All services are provided at *No Cost* to families. Private insurance or Medicaid are billed for specific therapies such as speech and physical or occupational therapy.

Individuals and parents are encouraged to contribute their resources, skills and time in collaboration with service providers to effectively meet their needs and further the mission of DEAP.

Service Area

Services are provided in the child's home in the following counties:

- Carter
- Custer
- Dawson
- Fallon
- Garfield
- Powder River
- Prairie
- Rosebud
- Treasure
- Wibaux

Part C Early Intervention Program

Connecting with individuals, families and communities.

Mission Statement

The mission of DEAP is to provide community-based services which support individuals and families to strengthen their skills and abilities and to enhance care and quality of life.

Overview

Part C is a program of early intervention services for children with disabilities ages 0-36 months. Families with children who meet the eligibility criteria established by the state are entitled to a range of services defined under federal law. Services are delivered as part of an Individual Family Service Plan (IFSP) developed in cooperation with the family. Services available include: Family Support Coordination; Assistive Technology; Audiology; Family Education, Counseling and Home Visits; Nursing; Health Related; Medical; Nutrition; Occupational, Physical and Speech Therapy; Psychological; Vision; Social Work; Special Instruction; and Transportation.

Services

- Evaluation of child's development
- Special instruction and activities to enhance learning
- Information and support in locating other services and resources to address concerns or needs identified by the family
- Coaching to assist families to weave intervention into daily routines so that children have the best chance to learn and retain new skills
- Coordination and consultation with other service providers such as: doctors, therapists, child care providers, etc.

Eligibility

- Any child who is born with an established condition that is known to cause developmental delays, even if the delay does not currently exist, such as:
 - Genetic disorders
 - Infectious disease
 - Neurological disorders
 - Congenital syndromes
 - Visual/auditory impairments
 - Prenatal exposure to toxic substances
- Any child who is experiencing a delay of 50% in one developmental area or 25% in two or more areas

Referrals

- Family must approve
- Family members, medical personnel, school personnel, day care providers, and others involved in the child's development may make a referral by calling the Miles City office and speaking to the Intake Coordinator

Providing the Big Picture

The Part C Early Intervention Program is a family-centered program for children from birth to three years of age who may need help in one or more of the following areas of development:

- *Language*
- *Movement*
- *Problem Solving*
- *Hearing*
- *Vision*
- *Feeding*
- *Dressing*
- *Behavior*
